

# WANTOK TOOLS

## COMPANY PROFILE

Wantok Tools Company Ltd (WANTOK for short as following) is the first-class supplier of Gardening Tools, Agricultural Implements and Hand Tools. Founded in 1993, WANTOK has become an international enterprise with the capability of Research, Production and Trade.

In China, WANTOK has three large-scale manufactories who cover 10,000 square meters land area and has various top equipments including forging machine, rolling forging machine, pressing machine, painting machine and polishing

machine together with the superior assembling line and production line. One product with high quality comes into being every half minute.

Quality and service are the core of our eternal guidelines. We take the product quality and customer service as our business life. "Customers' needs drive our

way, customers' satisfactions direct our way" · After 23 years of efforts, WANTOK has set up a perfect quality control and monitoring system and ascended the international market with its good product quality and service in every possible way.

Innovation is our soul. Over several years, we have successfully designed hundreds of new products which have been put into the market. What's more, we have several national patents and become one of those a few enterprises who possess it.

WANTOK Shanghai Branch was opened in 2004 due to business expanding. There's a nice show room with

thousands of samples exhibited everyday, it's more like a non-ceasing Fair, customers from all corners of the world are warmly welcomed!

This is just a beginning. WANTOK is still introducing into advanced equipment and technology for increasing processing ability, enlarging capacity and perfecting system management and service.
